

# SHARK

5-Jaw Chuck

good better BLUE

**GDS**<sup>®</sup>  
Made in Germany

**SHARK** - The multi-range, high precision, clamping system built with GDS quality!

Modern grinding processes become more and more complex, forcing you to achieve extreme precision and perfect quality while minimizing setup and tool-changing times, due to pricing pressure.

The SHARK **automatically clamps any diameter across a 13 mm range** in a process-safe manner without any further aids. And that range is **easily adjustable between 3 and 20 mm**. (For example, you can set the chuck to clamp the 3-16 mm range and then switch to the 7-20 mm range.)

## Features:

- Fits any WALTER tool grinder with the SK50 workhead (Helitronic Vision, Power, Raptor, etc). Adapters for other tool grinders coming
- Minimum clamping depth 2.5 x D, maximum depth 100-140 mm
- Suitable for manual and auto-loading
- No special tools required

Your **flexible** solution covering the clamping range 3-20 mm.

## Your advantages:

- Flexible clamping range without changing collets or making adjustments
- Vibration dampening
- Eliminate radial runout

Be the first to benefit from this amazing **GDS** technology!

We are offering the first 100 chucks  
at the special price of **\$9,440** net!

To reserve your chuck, **order now**  
and make a down payment of \$2,000  
**for delivery by the end of 2020**

Regular list price \$11,504
